

M3Tech Launches New Range of Mobile GPS

12 Sep 2008, Bernama

Kuala Lumpur, Sept 11(Bernama) -- M3 Technologies (Asia) Bhd, today officially launched a range of mobile global positioning system (GPS) related services under the brand name, Scout.

In a statement here today, M3Tech said Scout was the result of the company's partnership with Garmin International, a renowned name in GPS.

M3Tech said Scout is aimed at empowering mobile subscribers with additional, innovative options for navigation and tracking by simply using their mobile device.

"We believe that this range of new products will take M3Tech to the next level of offering a wider option of mobile solutions," it said.

The new Scout is now available in Malaysia and Singapore. It will soon be marketed across Asia.
